Introduction

Bank of Hawaii (BOH) Commercial RDN, Remote Deposit Now (RDN) allows you to scan checks from your place of business, perform MICR repairs, and key in the dollar amount of an item. There are reporting options available within the RDN window and the system application to help manage transaction information.

Accessing the Application

To access the RDN application, you must log in to the application with the proper URL and login credentials supplied by your organization admin user. Your admin user will receive their credentials from BOH Cash Management. To get to the proper URL, please go to Remote Deposit Capture - Bank of Hawaii (boh.com) and click on the RDC link. You can also find the most up to date contact information, in case you have any questions.

System Requirements

NOTE: For installation on a Mac[®] computer, please refer to the RDN MacOS Scanner *Installation Guide*.

For an optimal experience, a high-speed Internet connection is recommended, and the following components are required for working with the application(s).

For the PC:

- Local administrative rights
- Local User Profile
- USB port 2.0 or higher
- .NET[®] Framework 4.7 or higher For Microsoft[®] Windows[®]:
- Windows 8.1: Google Chrome
- Windows 10: Google Chrome

NOTE: The current version of Chrome and its two previous versions are supported.

Please refer to the approved compatible scanner list for the appropriate scanner.

Installing Microsoft Components for RDN

If you do not already have the following components installed, use the links provided below to download and install the appropriate Microsoft components for use with RDN.

Microsoft .NET Framework 4.7 (Web Installer): <u>https://www.microsoft.com/en-us/download/details.aspx?id=55170</u> Local administrator rights are required to install .NET updates.

Trusted Sites

A user will need to ensure that the application URL is added to the *Trusted Sites* option in *Internet Settings*. Use the following steps to add the website to your Trusted Sites.

 Open Control Panel from your Start Menu. Select Internet Options. Note: You may need to select Network and Internet and then Internet Options.

2. From the tabs at the top of the Internet Options window, select Security.
